Weekly Journal Report

Note: Main purpose of this report is to help you organize your work from the first day. **This would help you with your final paper writing.** You are encouraged to improve your knowledge in the functionalities of MS word such as format, equation. A week will start from Sunday and ends on Saturday. Please note that you do not have to be formal, Summary and the discussion can be as short as you like. But more details will help you to document them for Final Report.

Part 1

Date:	09/06/2020		
Week:	08/30/2020	to	09/06/2020
Name:	Shiva Karki		
Team Name:			
Goals for the week:	1. Finalize our project idea.		
Goals completed:	1. Decided to this project idea. 2. Discussed set of our skills and roles for the project. 3. Formulated the role(s) for each team member. 4. Discussed what the team needs to achieve together. 5. Decided what can be done individually or through zoom.		
Goals for next week:	1. To finalize the project. 2. Plan and implement the project idea. 3. Get start with the project.		

Part 2

Please list the problems related to your project		
Problems Solved	**Summary**	**Your ideas for future direction**
What kinds of problem you are dealing with: We are dealing with formulating a fixed Team by doing code of conduct and assigning roles for each Team member and setting up a communication medium.	**Summary of why that is the problem. If there is such, why that problem needs to be solved and how did you do it.** **What assumptions you took. If taken from somewhere cite them here** If we do not setup a fixed Team, the project will not go smoothly. Later, somebody might show no responsibility towards the project and team might collapse and another team member might have to suffer on completing the Project.	**If not completed, how are you planning to solve the problem** It is completed and everybody is eager to get started with project. As per our last meeting everybody is showing responsibility towards our Project.

	Mode of Communication medium was setup because we need to be in touch and interact with each other about project. **We need to start project by next week, so it is important to set up a team and assign roles to each member. Assigning roles to members , project gets a proper vision and direction.**	

Summary of the goals achieved
We have made a group named Team Lotus, we setup a communication medium called Discord for our project and prepared the weekly meeting date, date and time. Assigned the roles for each member. We communicated with our professor about the project ideas and tried to get information on different project that we were interested on.

Part 4

Summarize the weekly meetings with the team (any suggested improvements, your questions and concerns, etc.)
1. **Our first meeting was on Saturday, September 5th, that went smoothly. We then assigned the roles for each member based on experience and skills.**   **We finally decided how to start with our group assignment as a Team. We started to talk about how to focus and be responsible towards our project as a team. We made sure everyone's voice is heard regarding the role of an individual. We will have more interaction via zoom and discord regarding our project.**
